XAMK, CADGI, Cypherdelic And TUTORS, Virtual

Jul 2022 - Aug 2022

After getting selected for the game development internship co powered by XAMK university Finland, I worked with my assigned team and developed a game together. My role was of a game developer.

TRAININGS

Web Development HTML & CSS

Inmovidu, Online

Apr 2021 - May 2021

Developing Investment Acumen And Stock Analysis

Carebro Kids, Online

Mar 2021 - Mar 2021

Here we were trained in the stock market and investment and were taught. We created portfolio, And we did live analysis and investment.

Artificial Intelligence

Inmovidu, Online

Feb 2021 - Mar 2021

NEN's Programs On Entrepreneurship By Wadhwani Foundation

Wadhwani Foundation , Online

Dec 2020 - Jun 2021

Compulsory course in our college. Here, we were asked to find a common major problem in our locality. Find solution and generate business and sales. Which was the final objective of this venture. But before that we need to pass various parameters and do several things and plan our business properly. We recorded every details into a ppt. And upon completion the ventures that were potential real venture and had strong aspects to become a real business were awarded certificate of achievement. My venture was judged by global jury and I got a score of 4.655 (on a 5- point scale). Find everything from the link given below

PROJECTS

Automatic bill generator

Sep 2022 - Nov 2022

<https://github.com/AnishAaron/web-auto-bill.git>

This is a web application where there is a camera where if you show items then the machine will detect those items and generate a bill which will show you the net amount and cost of each item.

AI robot arm

Mar 2022 - Apr 2022

https://drive.google.com/file/d/1tK5WDs9ihva1J8Z_R-ge3NdelzhGuO6e/view?usp=sharing

We, using Python arduino, created a robot arm. Our main aim was to create an arm that could play hand gesture games with humans with its own intelligence like any other human opponent. The project is still in the developmental phase.

Sorting visualizer using Python 3.X

Dec 2021 - Jan 2022

<https://drive.google.com/drive/folders/1se788-WVGsrll8GvBX53AUmEDIGO-dtv?usp=sharing>

Our group created a project using python 3.X which can visually show how sorting techniques in DSA work. The project contained Merge, heap, insertion, bubble, insertion, selection & quick sort.

Android development project

Oct 2021 - Nov 2021

<https://drive.google.com/file/d/1r6hgRASJob8t67gHQHWLQSLV2bVsVUqT/view?usp=sharing>

In the second semester we had to create a self-innovative project. And, I have a special friend for whom I had to prepare a gift. So, I studied android development for a week and created this application. It's a big project and is still in project

Application of nanotechnologies in today's world

Nov 2020 - Jan 2021

<https://drive.google.com/drive/folders/1d4YDVjrZjtLwLfKzs-XKkoeucWCvKIEg?usp=sharing>

It's the first time in engineering course we created our own review paper. We opened several research papers and did a deep analysis and created our own review paper.
